The right fit is key to reducing leakage

Leakage affects the majority of ostomy patients¹

BodyFit Technology is an elastic adhesive that is unique to all **SenSura® Mio** barriers

- **Adheres securely** to the body to protect the skin
- **Flexible** to maintain a secure fit during body movement
- **Flows** into creases and folds to prevent leakage

The above image is the SenSura Mio barrier conforming to the curves of the hand and flexing with movement

1. Claessens I, Probert R, et. al. The Ostomy Life Study: the everyday challenges faced by people living with a stoma in a snapshot. *Gastrointestinal Nurs.* 2015;13(5):18-25.

Ostomy care for skin, body and mind

SenSura® Mio

Finding the right fit is essential to help reduce leakage and skin complications

Flat

Features a unique elastic adhesive that follows body shape and movement.

Convex

Provides stability without compromising flexibility. Available in Soft, Light, and Deep to fit a wide range of patient needs.

Convex Flip

The only barrier specifically designed for outward curves. Just flip to fit!

Because every fit matters

Ostomy care for skin, body and mind

Supporting your care of every patient

Our complete portfolio of 1-piece and 2-piece pouching systems can meet the unique needs of your patients.

2-piece Click pouching systems

Mechanical coupling with a locking mechanism for security you can hear

2-piece Flex pouching systems

Adhesive coupling provides the convenience of a 2-piece with the flexibility of a 1-piece

1-piece pouching systems

For a low profile and ultimate flexibility

*Compared to prior click coupling

Innovative pediatric solutions for little fighters

SenSura® Mio Baby

For babies 30 weeks' gestation to 6 months

- Specifically designed to **meet the needs of premature babies and infants** living with a stoma
- Includes a **refeeding window** for easy access to refeed or expel gas
- **Skin-friendly adhesive** provides long wear time for less disturbances

SenSura® Mio Kids

For kids 6 months to 4 years

- **Star-shaped elastic adhesive** has special petals to hug kids' small, round bellies
- Designed with Bodyfit Technology to provide a **flexible fit** to allow children to move freely
- Options available in 1-piece and 2-piece pouching system to **step up as kids grow**

Innovative Supporting Products to **personalize fit**

Brava® Supporting Products

Our barrier and pouching systems in combination with Brava® Supporting Products provide a personalized pouching solution to help **reduce leakage** and **help reduce skin issues**.

Protect the skin

Secure against leakage

Support with confidence

Brava® Supporting Products Personalizing ostomy solutions for individual needs

Leakage and skin irritation are two of the most common problems faced by people with an ostomy, and they can carry severe consequences.

76% of ostomates experience leakage¹

88% of ostomates experience skin issues²

95% of all people with an ostomy use supporting products³

3.7 supporting products are used on average³

Brava® Supporting Products

cover three distinct needs for an effective pouch-change routine

Protect the skin

Care for the skin and continue to encourage healthy peristomal skin.

Secure against leakage

Create a tight seal by filling any dips, deep folds and even the smallest creases to protect the skin around the stoma from leakage and the associated skin complications.

Support with confidence

Personalized solutions that give a feeling of security and support for many activities...building confidence for everyday life and allowing discretion when it is needed most.

For help eliminating airborne odors check out [Hex-On Odor Antagonist!](#)

Supporting Products

Brava® Supporting Products Personalizing ostomy solutions for individual needs

Brava® Elastic Barrier Strips

Skin-friendly strips are used to "picture frame" around an ostomy barrier for extra security.

- Elastic to follow body contours
- Supports longer wear-time by reducing lifting and rolling of the barrier edges
- Reduces unplanned changes
- Absorbs moisture and even sweat while being active
- Skin-friendly and secure alternative to tape
- Not made with natural rubber latex

Without stretching, apply strips after the barrier has been placed

Brava® Elastic Barrier Strips - Curved

For round or oval barrier shapes

Code	Size	Units	HCPCS*
120700**	5½" strips	20 strips	A4362

***2 strips = 1 billable unit of A4362*

Brava® Elastic Barrier Strips - Y shape

Wings provide additional support even in areas like hernia, bulges or deep folds

Code	Size	Units	HCPCS*
120721**	5¾" strips	30 strips	A5121

***3 strips = 1 billable unit of A5121*

Brava® Elastic Barrier Strips - Straight

For square or rectangular barrier shapes

Code	Size	Units	HCPCS*
120740**	5¼" strips	20 strips	A4362

***2 strips = 1 billable unit of A4362*

Brava® Elastic Barrier Strips - XL

60% larger adhesive than original Curved for increased security & support around the barrier

Code	Size	Units	HCPCS*
12076**	6¾" strips	30 strips	A5121

***3 strips = 1 billable unit of A5121*

Brava® Protective Seal

Proven Leakage Protection

Brava® Protective Seal is proven to significantly reduce leakage by creating a long-lasting and personalized seal between the barrier and skin.

Brava® Protective Seal

Moldable barrier ring designed to adhere securely and protect the skin around the stoma.

- Easy to shape, apply, and removes cleanly in one piece
- Mold to fit any shape of stoma, including oval
- Soft, flexible material adapts to body shape as the wearer bends and stretches
- Unique polymer formulation is designed to hold up against even the most aggressive output
- Alcohol-free and sting-free
- Multiple sizes for a personalized fit
- Not made with natural rubber latex

Units 10, HCPCS* A4385

Stoma size	Code		Seal width
	Thin (2.5 mm)	Thick (4.2 mm)	
¾" (18 mm)	12035**	12045**	Standard (5/8", 15 mm)
	12036	12046	Wide (3/4", 20 mm)
	12038	12048	Wide (7/8", 23 mm)
	12032	-	Extra wide (1 1/8", 29 mm)
1 1/8" (27 mm)	12037**	12047	Standard (5/8", 15 mm)
	12033	-	Extra wide (1", 25 mm)
1 3/8" (34 mm)	12039	12049	Standard (5/8", 15 mm)

**Denotes seals that fit most patients

Brava® Protective Seal Convex

Moldable barrier ring with convexity to provide support for flush or retracted stomas and patients with deep creases, folds or scars around their stoma.

- Sustains convexity after molding to fit individual stoma shapes, including oval and loop
- High-tack adhesive that flows quickly into skin, filling even the smallest creases
- Erosion resistant composition
- High flexibility to maintain seal during body movement
- Steep sides of convex seal are designed to provide convexity
- Thin edges fit snugly around peristomal area
- Not made with natural rubber latex

Units 10, HCPCS* A4411

Stoma size	Code	Thickness
¾" (20 mm)	12090**	8.2 mm
1" (25 mm)	12091	8.2 mm
1 3/16" (30 mm)	12092**	8.2 mm
1 3/8" (35 mm)	12093	8.2 mm
1 9/16" (40 mm)	12094**	8.2 mm
1 3/4" (45 mm)	12095	8.2 mm

**Denotes seals that fit most patients

Six must-have seals

Brava® Protective Seals are all designed to stretch, mold, and fill creases to even out the peristomal area. Below we've outlined six seals that meet most clinical needs.

Seals that fit most patients

For smaller stomas

Brava Protective Seal #12035

HCPCS* A4385

- Thin (2.5 mm) moldable ring with a ¾" (18 mm) opening
- Stretches to fit the most common sizes of stomas

For challenging peristomal areas

Brava Protective Seal #12045

HCPCS* A4385

- Thick (4.2 mm) moldable ring with a ¾" (18 mm) opening
- Fills creases, folds, and scars next to the stoma
- Can shape and use like strip paste to caulk and even out peristomal area prior to sealing area between stoma and barrier with additional ring fit to stoma size**

**May use more than 1 seal on a single patient

Seals for patients that need convexity

For flush or retracted stomas or deep creases, folds or scars

Brava® Protective Seal Convex

HCPCS* A4411

#12090: ¾" (20 mm) opening

#12092: 1 3/16" (30 mm) opening

#12094: 1 9/16" (40 mm) opening

- Select convex seal closest to stoma size, then stretch to fit
- Moldable convex ring with 8.2 mm of convexity
- Convex shape protrudes stoma helping output go into pouch
- Sustains convexity even after being stretched and molded

A versatile seal for a personalized fit

Use as a ring to support the stoma

Shape and use like caulk to fill folds, creases, and scars to even out the peristomal area

Seal and fill gaps between the barrier and the stoma

Supporting Products

Brava® Moldable Ring

Legacy moldable barrier ring fills uneven skin surfaces to create a durable seal between the stoma and ostomy barrier to protect against leakage.

- Helps keep skin healthy by protecting it from output and absorbing moisture from the skin
- Alcohol-free and sting-free
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
120307	2 mm (thin)	10	A4385
120427	4.2 mm (thick)	10	A4385

Brava® Strip Paste

Easy to shape and mold paste strips, fill uneven surfaces for a flat pouching surface.

- Protects peristomal skin from stoma output
- Contains pectin
- Alcohol-free and sting-free
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
26555	2 oz. total package (0.2 oz. per strip)	10 strips	A4406

Brava® Paste

Paste is sting-free and is used to fill uneven skin surfaces for a flat pouching surface.

- Use like caulk to fill creases, folds and scars
- Creates a tight seal between peristomal skin and the ostomy/fistula appliance
- A sting-free alternative to conventional alcohol-based paste
- No alcohol = no need to "set"; contains pectin
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
12050	2 oz.	1	A4406

Coloplast® Paste

Legacy paste is used to fill uneven skin surfaces for a flat pouching surface.

- Protects against stoma output
- Low alcohol content; no pectin
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
2650	2 oz.	12	A4405

Brava® Skin Cleanser Wipes

The wipe that cleans and cares. A convenient way to cleanse and maintain healthy skin when changing the ostomy pouching system.

- Does not contain alcohol or perfumes
- No residue left on the skin that could affect barrier adhesion
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
12080	1 wipe	15 wipes/pack	A9286**

Supporting Products

Brava® Lubricating Deodorant

A pouch lubricant and deodorizer in one. Add inside pouch to neutralize odor and create a slick surface, allowing output to slide to the bottom of the pouch for easier emptying.

- Powder fresh smell
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
12060	.25 fl. oz. (7.5 mL) sachet	20 sachets	A4394
12061	8 oz. bottle	16 bottles	A4394

Brava® Adhesive Remover Spray

Quick and easy removal of adhesives.

- Designed to lift the edges of the barrier for ease in removal
- Dries within seconds without leaving an oily residue behind
- Alcohol-free, silicone-based, and sting-free
- Spray at any angle
- Spray can be completely emptied, reducing waste
- It does not change adhesion of next pouching system
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
120105	1.7 oz. (50 mL)	1	A4455**

Brava® Adhesive Remover Wipes

Wipe away adhesive residue.

- Skin-friendly wipes contain silicone to be gentle on the skin and allows for easy removal of the barrier
- Dries within seconds without leaving an oily residue behind
- Alcohol-free, silicone-based, and sting-free
- It does not change adhesion of next pouching system
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
120115	1 wipe	30 wipes/box	A4456**

Brava® Skin Barrier Spray

Creates an invisible skin friendly layer to protect the skin from output and adhesives.

- Dries matte and within seconds without building a thick or tacky layer
- Alcohol-free, silicone-based, and sting-free
- Improves skin condition by reducing skin problems related to output and adhesives
- Adhesion of next pouching system is unaffected
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
120205	1.7 oz. (50 mL)	1	A4369**

Brava® Skin Barrier Wipes

Convenient wipe creates an invisible skin friendly layer to protect the skin from output and adhesives.

- Improves skin condition by reducing skin problems related to output and adhesives
- Adhesion of next pouching system is unaffected
- Dries matte and within seconds without building a thick or tacky layer
- Alcohol-free, silicone-based, and sting-free
- Not made with natural rubber latex

Tip: Wring the wipe like a wet rag to expel the liquid, then dab to disperse on skin

Code	Size	Units	HCPCS*
120215	1 wipe	30 wipes/box	A5120**

Brava® Protective Sheet

Skin friendly hydrocolloid skin barrier that protects the skin from stoma output.

- Adheres to moist skin
- Absorbs moisture and minimizes the risk of maceration
- Easy to cut to fit stoma or desired shape
- Provides a ready surface for good adhesion
- Not made with natural rubber latex

Without stretching, apply sheet before adding a seal or the pouching system

Code	Size	Units	HCPCS*
32105	4 x 4" (10 x 10 cm)	10	A4362
32155	6 x 6" (15 x 15 cm)	5	A5121
32205	8 x 8" (20 x 20 cm)	5	A5122

Brava® Powder

Non-sterile powder for moisture absorption to reduce risk of skin irritation.

- May use in conjunction with Brava® Skin Barrier Spray/Wipes or Prep™ Protective Skin Barrier to "crust", thereby protecting moist skin
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
19075	1 oz. (25 g)	16	A4371

Hex-On® Odor Antagonist

Air spray tackles and controls airborne odors.

- Non-aerosol spray
- Available in both Fresh Linen and Fragrance Free scent
- Not made with natural rubber latex

Code	Product	Size	Units
7583	Fresh Linen	2 fl. oz./59 mL	12
67589	Fragrance Free	2 fl. oz./59 mL	12

Ostomy Scissors

Curved ostomy scissors.

- Not made with natural rubber latex

Code	Size	Units	HCPCS*
95050	One size	30/bx	N/A

Coloplast® Skin Barrier Rings

Soft and flexible legacy barrier rings provide skin protection for stomas, fistulas, and draining wounds.

- Not moldable
- Non-pectin based
- Not made with natural rubber latex

Code	Size	Units	HCPCS*
2310	⅜" (10 mm)	30	A4404
2315	⅝" (15 mm)	30	A4404

Supporting Products

Coloplast® Urostomy Night Bag

Designed for urine output, the bag includes a fixed connector that fits directly to SenSura® Mio (including SenSura® Mio Kids), SenSura® and Assura® urostomy pouches.

- Holds up to 2 liters (2000 mL)
- 120 cm long flexible tube with anti-reflux valve
- Bag hanger (#5070) not included- order separately
- Not made with natural rubber latex

Code	Units	HCPCS*
21365	10	A4357

Coloplast® Bed Drainage Bag

Wide-lumen bag tubing specifically designed for fecal output.

- Holds up to 2 liters (2000 mL)
- Can be cut to find right length for bed drainage
- Compatible with fistula and wound management systems or high-output pouches
- Bag hanger (#5070) not included- order separately
- Not made with natural rubber latex

Code	Units	HCPCS*
14010	6	A4357

Coloplast® Bag Hanger

Reusable, sturdy, plastic drainage bag hanger secures tubing and ensures bag stability.

- Not made with natural rubber latex

SenSura® Mio Click

Intuitive and **easy** to apply – with a **secure** and **leak-tight** coupling

All it takes is a gentle press and lock to secure!

Place

1. Make sure the lock is open and **align the pouch and coupling**.

Tip: Move the lock to the 11 o'clock or 1 o'clock position so it's easy to find.

Click

2. **Apply gentle pressure** to the pouch with your hand to 'click' the coupling into place.

Tip: Start with as little pressure as possible.

Lock

3. **Squeeze the lock** until you hear a 'click'.

Tip: Audible feedback offers reassurance pouch is secure.

*Compared to prior click coupling

2-Piece SenSura® Mio Click

NOTE: SenSura® Mio Click is NOT compatible with SenSura® Click or Assura® systems.

SenSura® Mio Click Barrier

- Extended wear
- Flat
- Belt tabs for use with 4237, 4247
- Not made with natural rubber latex

2-Piece SenSura® Mio Click

Urostomy

SenSura® Mio Uro

Wide anti-reflux valves support varying ways of managing stents:

- Stents threaded into a pouch connected to a night drainage bag
- Rolling the stents in the top of the pouch, making a loop
- Stents that have been cut

Welded "multi-chambers" minimize ballooning

SenSura® Mio Click MAXI Urostomy Pouch

- Multi-chambers minimize sloshing
- Wider anti-reflux valves prevent urine from washing over the stoma
- Soft outlet can be connected to urostomy night bag #21365 or any standard night or leg bag
- Neutral gray, water-resistant textile
- Not made with natural rubber latex

SenSura® Mio

Patients deserve proven leakage reduction¹ from the start

A multi-site US acute care study showed

SenSura® Mio users had 41% lower risk of leakage

compared to users of Hollister® CeraPlus¹*

1. Based on a retrospective study conducted at 2 affiliated university hospitals; n=214 patient charts with surgery dates ranging from February 2022 to June 2023. Patient events were charted by the WOC nurse at each pouch change; review captured up to 5 pouch changes or 2 weeks of data. Statistical analysis controlled for key differences between sites and found predicted probability of leakage for SenSura Mio was 15.1% and Hollister® CeraPlus™ was 25.6%, corresponding to a 40.8% lower risk (p=0.011). Zamarripa, C. et al. Pouching System Leakage and Peristomal Skin Complications Following Ostomy Surgery in the Immediate Postoperative Period: A Retrospective Review. *J Wound Ostomy Continence Nurs.* 2024;51(6):478-483.

SenSura® Mio Baby & Kids

For the little fighters

Babies and kids present different pouching challenges than adults - so we've developed specific solutions for different stages in a child's life.

Stepping up over time, as kids grow

Ask us about our pediatric education!

Pediatric FAQ for parents & caregivers
Tipsheet with answers to frequently asked questions, like "what do I do if friends and family - or other kids

- have questions?" and "what do I do if my child pulls the pouch off?" Available in English and Spanish. Caregivers can request this from our Coloplast Care program.

My child has an ostomy: resource sheet for caregivers

A fill-in-the-blank sheet to help parents communicate about their child's needs to daycare providers, school nurses, and other caregivers. Caregivers can request this from our Coloplast Care program.

Life after your child's ostomy
A booklet covering an overview of anatomy, how to change a pouch, pouching system options, where to get supplies, dietary notes, and other information. Available in English and Spanish. Caregivers can request this from our Coloplast Care program.

When I met Tipster: A coloring book for children with ostomies

A simple coloring book to help kids engage with their ostomy surgery and "new normal" - or learn more about a sibling's ostomy. Available to healthcare facilities via Coloplast sales representatives, or caregivers can request from our Coloplast Care program.

Jake Gets a Stoma
A children's book written by Jake's mom, who wanted a better way to explain the surgery and stoma management to her son and other kids going through the same thing. Available to healthcare facilities via Coloplast sales representatives, or caregivers can request from our Coloplast Care program.

SenSura® Mio Bunny
Coloplast offers a complimentary training bunny for product education use with both SenSura® Mio Baby & Kids. Available to healthcare facilities via Coloplast sales representatives.

Limitations apply. The SenSura® Mio Bunny is provided to healthcare facilities for families for teaching purposes only and should only be used with Coloplast products.

Teen life with an ostomy
Navigating school, what to wear, and hanging out with friends aren't covered by the average adult-oriented materials - that's why we're so excited to feature tips from Paige, a teen who's been through it all!

Caregivers can request this from our Coloplast Care program.

**Using Brava® Supporting Products with Pediatrics**

Based on updated documentation guidelines, real-life use, and existing biological evaluation reports, Coloplast reassessed the risk to pediatrics with the use of supporting products. Updated guidelines are provided below.

Product	Caution
Brava® Protective Seal	No caution
Brava® Protective Seal Convex	
Brava® Elastic Barrier Strips	
Brava® Protective Sheet	
Brava® Lubricating Deodorant	
Brava® Skin Cleanser Wipes	
Brava® Moldable Ring	
Brava® Strip Paste	<i>This product is non-sterile and should be used with caution on premature babies or infants receiving incubator care as it may lead to increased risks of infection.</i>
Brava® Paste	
Brava® Powder	
Brava® Adhesive Remover Wipes	<i>Not recommended to be used on premature infants, neonates or infants below 4 kg (8.8 lbs) because of their immature skin.</i>
Brava® Skin Barrier Wipes	
Brava® Adhesive Remover Spray	<i>Not recommended to be used on premature infants, neonates or infants below 4 kg (8.8 lbs) because of their immature skin. Avoid direct inhalation as it may give rise to temporary irritation of the airways.</i>
Brava® Skin Barrier Spray	

Any use outside of our indication is considered off-label use and is up to the clinician's own discretion. Clinicians must weigh the risks and benefits of available products to make an informed and appropriate decision for each patient.

Delivering Personalized Care Solutions. Simply. Reliably. For You.

About the team

Coloplast Care Advisors assist patients with their intimate healthcare needs, by providing personalized lifestyle and product advice and ongoing resources. We will assist in coordinating communications with a supplier to place an order when appropriate, or refer back to clinicians if there are concerns.

Tell your patients we will be calling from:

1-877-858-2656 Hablamos español

www.ostomy.coloplastcare.us

Ostomy patients enrolled experienced:

 **~30% ↓**
Reduction in hospital readmission rates¹¹

 **~45% ↓**
Reduction in unnecessary ER visits¹¹

 **~25% ↑**
Increase in HCAHPS satisfaction scores¹²

Each person's situation is unique and risks, outcomes, experience, and results may vary.

Ostomy patients that engage with our Coloplast Care Advisors do better over time and **had statistically fewer peristomal skin conditions³**

¹Observed values within the first month of discharge.

MyOstomyLife by Coloplast Care

The **MyOstomyLife** app complements your teaching, creates a personalized care experience for your patient and contributes to improving outcomes by connecting to a Coloplast Care Advisor.

MyOstomyLife will:

- Allow patients to track and upload their diary report of skin condition, stoma complications or leakage when they change their pouch
- Alert the Coloplast Care team if patient is struggling
- Available in iPhone app store or the Google Play Store for android phones

Your patients can find educational information in the app. Add your patient's email to invite them to the app using **Coloplast Care Connect**.

Tips for success

SenSura® Mio

Prior to use, refer to the product 'Instructions for use' for intended use and relevant safety information.

Cut the barrier to fit the exact size and shape of the stoma

Make sure the skin around the stoma is clean and dry

- Use water and a clean cloth
- Ensure all residue is removed
- Do not use soaps, moisturizers, or oil-based products as these may affect adhesion
- Consult your Wound Ostomy Continence (WOC) nurse for questions about supporting products

Apply gentle hand pressure to the entire barrier to initiate adhesion

- Run a finger around the stoma, then smooth outwards to the edges
- Ensure the entire barrier has been massaged into the skin

For product support call the Coloplast Care Clinician Support Line at 1-855-863-3912

SenSura® Mio

Tips for success

Prior to use, refer to the product 'Instructions for use' for intended use and relevant safety information.

Close drainable pouches prior to use

- For a drainable fecal pouch, disconnect the VELCRO® brand dots used to empty, then fold the outlet towards the head of the patient three times. Fold the two turquoise tabs inwards to secure the VELCRO® brand fastener.

When using a 2-piece system, grab both a barrier and a pouch

- For **SenSura® Mio Flex**, align the edge of the adhesive ring with the turquoise ring on the outer rim of the barrier and apply gentle pressure around the barrier coupling to secure.
- For **SenSura® Mio Click**, align the coupling rings and, keeping your hand flat against the pouch, gently press the pouch to the barrier – you should feel it 'click' into place. Squeeze the lock to secure the pouch.

Medicare utilization – ostomy

Medicare Utilization - Ostomy

Usual maximum limits for some products from the Medicare Local Coverage Determinations (LCD)¹ are shown below. The amount of ostomy supplies varies by patient based on the type of ostomy, its location, its construction, and the condition of the peristomal skin. The table below shows the maximum number of items that are usually medically necessary for patients with ostomies. It may be more or less depending on the factors that affect the frequency of barrier and pouch change. The medical necessity for a greater quantity of supplies must be clearly documented in the patient's medical record (physician's signed and dated order).

HCPCS*	Short Description	Usual Maximum ¹
A4357	Bedside drainage bag	2 ea/month
A4361	Ostomy faceplate, each	3 ea/6 months
A4362	Skin barrier, solid, 4x4 or equivalent; each*	20 ea/month
A4363	Ostomy clamp replacement	none*
A4367	Ostomy belt, each	1 ea/month
A4368	Ostomy filter	none*
A4369	Ostomy skin barrier; liquid, per ounce	2 oz./month
A4371	Ostomy skin barrier powder, per ounce	10 oz/6 months
A4372	Ostomy skin barrier, 4 x 4, standard wear, CONVEX	none*
